OBJECTIVE

Software Development student at New Brunswick Community College seeking an internship for Summer 2026.

EDUCATION

IT : Software Development – Programmer Analyst, NBCC

Expected 2027

Relevant Coursework: Database Programming with SQL Server, Object-Oriented Programming, JavaScript Development, MySQL Database Management, Bash Scripting, Software Engineering Principles, Intro to Git, and Responsive Web Design.

SKILLS

Languages	Python, C# (.NET), C++, MySQL, Java, HTML, CSS, JavaScript, Bash, MySQL, and Git.
Technical Skills	React, REST APIs, Web-Sockets, .NET Frameworks, Responsive Design, and Vim.
Core Skills	Data Structures & Algorithms, Verbal/Written Communication, and Problem Solving.

EXPERIENCE

General Worker Arrow Workforce – (Contractor for Rogers)	March 2024 – September 2025 Saint John, NB
---	---

- **Sole developer** for a **production-level** application, leading **design, development, and optimization**.
- Created detailed **usage manuals** and **system diagrams** for end-users and technical teams.
- **Collaborated** with **stakeholders** to gather feedback and **implement changes** into application structure.

PROJECTS

Autobox 4. Warehouse tool for automating data management and integrate with warehouse systems, increasing productivity and securing data accuracy. Streamlined inventory tracking, daily device processing, and goal comparison. Used by Rogers Communications to enhance operational efficiency and workflow. ([View Code](#))

JSON Parser. Developed a custom JSON parser in C++ that efficiently handles parsing of JSON objects, arrays, strings, and numbers. Implemented error handling, white-space skipping, and keyword recognition. Demonstrating a strong understanding of data structures and memory management in C++. ([View Code](#))

Coders Crypt. Developed a game in C# using Windows Forms, featuring strategic turn-based battles. Utilized object-oriented principles like polymorphism, method/operating overloading, and interfaces to manage game logic and abilities. Included unit testing and robust exception handling for a smooth user experience. ([View Code](#))

EXTRA-CURRICULAR ACTIVITIES

- Chess – I am an avid player with tournament experience and a current rating of 1900 ELO.
- Kattis – Completed numerous programming challenges on Kattis, achieving a score of 413 points and earning several fastest solution accolades.

LEADERSHIP

- Former President of the Mount Allison Chess Club
- Canadian Federation of Chess Tournament Organizer
